    e.   Color scheme

24.  The primary purpose of a screen saver is to prevent screen burn in. True or False?

25.  Windows 7 supports attaching more than two monitors to a computer and extending the desktop across all of them. True or False?

# Case Projects

### Case Project 3-1: Mobile Users

All of the sales people in Hyperactive Media Sales use laptops, so that they can take their applications and data on the road to client sites. One of the sales people, Bob, has a docking station so that his laptop easily connects to a printer and external monitor when he is in the office. What should you do to ensure that Windows 7 uses the proper device drivers when Bob is in and out of the office?
