

23. A WIM image file containing two Windows 7 images will be approximately twice as big as a WIM image file containing one Windows 7 image. True or False?
24. Which options must be used with ImageX to save changes to an image? (Choose two.)
- a. /mount
  - b. /mountrw
  - c. /unmount
  - d. /commit
  - e. /save
25. Which of the following are benefits of ImageX? (Choose all that apply.)
- a. WIM image file size is minimized by single instance storage.
  - b. Images can be taken of an entire partition or just a single folder.
  - c. Partitions can be created automatically.
  - d. Images are always compressed to save disk space.
  - e. There is no charge to use ImageX for Windows 7 imaging.

## Case Projects

### Case Project 2-1: Installation for a Small Organization

Buddy's Machine Shop has 30 computers. Computers are replaced only as required by hardware failure or new software requirements. Jeff performs network administration tasks for Buddy's machine shop 25% of the time and spends 75% of his time doing computer-automated design work. What is the best way for Jeff to start implementing Windows 7 for Buddy's Machine Shop?

### Case Project 2-2: Using Image-Based Installation

Superduper Lightspeed Computers builds over 100 computers per week for customers. The computers use a wide range of hardware depending on whether they are built for gaming, home use, or office use. Create a plan for Superduper Lightspeed Computers to start using imaging, including audit mode, to install Windows 7 on their new computers.

### Case Project 2-3: Migrating User Settings and Files

Hyperactive Media Sales has 10 Windows Vista laptop computers used by sales people in the organization. Each laptop computer has several customized applications that are used during the sales process as well as customer relationship management software. All of the applications on the laptops are difficult to configure and have large data files. If all of the laptops have current hardware, what is the easiest way to install Windows 7 on them?

### Case Project 2-4: Installation for a Large Organization

Gigantic Life Insurance has 4,000 users spread over five locations in North America. They have hired you as a consultant to identify the different options for deploying Windows 7 to the desktops in their organization. List several ways Windows 7 could be deployed for Gigantic Life Insurance, the benefits and drawbacks for each, and your recommendation.
